Re-Assessments for: Winter Mountain Leader & Mountaineering Instructor Certificate

You must bring your logbook with you, along with your first aid certificate and any written notes relating to the original assessment (we usually have the latter on file if you did your assessment with us).

YOU WILL BE DEFERRED IF YOU CANNOT PRODUCE A VALID, ORIGINAL COPY OF YOUR FIRST AID CERTIFICATE.

Your re-assessment will be over one or two days depending on your action plan.

Normally re-assessments are carried out on a 1:1 ratio but on occasions if there are two similar re-assessments to be carried out you may be teamed up with another candidate.

To some extent the date is always negotiable with the Head of Training, however, weekends are not usually possible.

Please discuss in advance with the Head of Training any requirements for mock clients for MIC reassessments.
